

'Structures & Textures' - 7th October 2017 Conference
Guest Speaker-Michael Brennand-Wood

Michael Brennand-Wood is a visual artist, curator, lecturer and arts consultant. He is nationally and internationally regarded as one of the most innovative and inspiring artists working in textiles, and has occupied a central position in the research, origination and advocacy of Contemporary International Art Textiles. He has persistently worked within contested areas of visual practice, embroidery, pattern, lace, ornamentation, conflict and floral imagery. Sites, which offer unbroken traditions, cross cultural interventions and a freedom to work outside the mainstream. He believes that the most innovative contemporary textiles come from an assured understanding of both textile technique and history.

Michael will give a presentation entitled 'Pretty Deadly' with an opportunity for questions

Please read this about the ERTF sales table:

In the past we have organised a members sales table called 'Cornucopia' where members can sell their work or surplus materials, old books and the like. ERTF would usually charge a 10% commission fee. However the money raised is quite small compared to the amount of work involved so we are pleased to announce that the popular Sales Table will continue as a service to the members with no commission payable. We would ask you to pin a label to your work with your name and price, keeping a list for yourself. All payments would be cash only, member to member. Any items left over could be donated to a local charity if you wish.
